

Meet the Demand.

Start Your Career in Project Management.

Regardless of your career stage, the **Certified Associate in Project Management (CAPM)[®]** is an asset that will distinguish you in the job market and enhance your credibility and effectiveness working on — or with — project teams.

Get the certification if you want to:

- Start an exciting career in project management
- Build on your current skill set and differentiate yourself in your profession
- Power your career as you lay the foundation for the Project Management Professional (PMP)[®]

(CAPM certification meets the education/training requirement for PMP certification)

CAPM[®] Certification tests your knowledge:

- Fundamentals of project management and the role of project managers
- Project management environment, and project iteration management
- Project scope, schedule, cost, quality and resource management
- Project procurement, communication, stakeholder and risk management

Prepare for the CAPM exam with a PMI[®] Authorized Training Partner (ATP) where you will receive high-quality instructor-led training for the CAPM Certification exam using PMI-developed training content.
